Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: the attorney discussed the new matter issue and pointed out that page 4, lines 5-10 provides support for the "new matter" of claim 26. The attorney also argued that Frazer is not related to hydrogen generating device. The examiner pointed out that Frazer is relied upon for the general teaching of using either hot exhaust gas, electrical heater or both to heat the catalyst (page 2, lines 87+). The attorney argued that the statement on page 2 of Frazer is for "preheating" the catalyst only .
